THE SUMMIT

A joint venture between two major players in their respective fields, Lancor Holdings and Vetri Systems and Software, The Summit is a luxury residential project in Sholinganallur - OMR, the rapidly growing IT Hub of Chennai.

Lancor Holdings, holds a record of having constructed over 1000 apartments, across 5 projects in Sholinganallur including - The Central Park (TCP) followed by Central Park West and Central Park South, TCP Lakefront and TCP Altura.

Vetri Software is a pioneer in BPO sector and has successfully developed and used customised software for several industries. Its client roster includes large corporates across the globe.

THE SUMMIT

Lancor Holdings for nearly four decades has been building landmark projects across Chennai and its suburbs. Its involvement with Sholinganallur goes back 18 years with a residential project – The Central Park (TCP) followed by Central Park West and Central Park South. Further extensions were named TCP Lakefront and TCP Altura. Today, between these projects have more than 1000 apartments occupied by satisfied customers.

Considering the emergence of the area as the preferred residential location, Lancor proudly announces yet another project in close proximity aptly named The Summit.

Spread over 12 grounds of peaceful residential locale, The Summit will be a Basement, Stilt + 11 storied building consisting of 42 large 3 BHK, 4 BHK apartments and Duplex Penthouses.

With only 4 apartments per floor, the design, styling and specifications of The Summit will match and perhaps surpass any high-end City project. As the name suggests, it is the 'High Point' of our offering in Sholinganallur, which has been among our focus areas for almost 2 decades.

Essentially The Summit will be a statement of simplistic elegance and minimalist opulence, making it the meeting point of all achievers like you who demand something better than 'best in class'.

Welcome to The Summit.
